## 2026 Neuromodulation Summit

Course Directors: Daniel Pak, MD; Jamal J. Hasoon, MD; Grant Chen, MD

**SATURDAY- OCTOBER 10, 2026**

|                                                                                                             |                                                                                                  |
|-------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------|
| <b>7:00-8:00 AM Registration and Breakfast</b>                                                              |                                                                                                  |
| <b>7:00-8:00 AM</b>                                                                                         | <b>Breakfast Sponsored by</b>                                                                    |
| <b>8:00-8:30 AM</b>                                                                                         | <b>Introduction to Neuromodulation</b>                                                           |
| <b>Didactic Neuromodulation Series</b><br><b>Group A - 8:30-10:00 AM</b><br><b>Group B – 10:00-11:30 AM</b> | <b>Hands-On Cadaver Lab</b><br><b>Group B - 8:30-10:00 AM</b><br><b>Group A – 10:00-11:30 AM</b> |
| Lecture 1:<br>Abbott: Burst, DRG stimulation (Chung)                                                        | Station 1:<br>Saluda: Thoracic SCS (Hustack)                                                     |
| Lecture 2:<br>Saluda: Evoke Closed Loop (Bruel)                                                             | Station 2:<br>Biotronik: Cervical SCS (Chen)                                                     |
| Lecture 3:<br>Biotronik: HF10 Therapy (Hasoon)                                                              | Station 3:<br>Abbott: DRG-S (Pak)                                                                |
| <b>11:30-12:30 PM</b>                                                                                       | <b>Lunch Sponsored by</b>                                                                        |
| <b>Didactic Neuromodulation Series</b><br><b>Group A - 12:30-2:00 PM</b><br><b>Group B – 2:00-3:30 PM</b>   | <b>Hands-On Cadaver Lab</b><br><b>Group B - 12:30-2:00 PM</b><br><b>Group A – 2:00-3:30 PM</b>   |
| Lecture 1:<br>Medtronic: IDDS (Atallah)                                                                     | Station 4:<br>Boston Scientific: Implant skills (Yopp)                                           |
| Lecture 2:<br>Boston Scientific: FAST therapy (Javed)                                                       | Station 5:<br>Nalu/Bioventus: PNS (Chen)                                                         |
| Lecture 3:<br>Nalu/Bioventus: Permanent PNS (Eckmann)                                                       | Station 6:<br>Medtronic: IDDS (Eshraghi)                                                         |
| <b>3:30 PM</b>                                                                                              | <b>Course Concludes</b>                                                                          |

## **2026 Neuromodulation Summit**

**Course Directors: Daniel Pak, MD; Jamal J. Hasoon, MD; Grant Chen, MD**

### **Invited Faculty**

- Matt Chung, MD (MD Anderson)
- Saba Javed, MD (MD Anderson)
- Eric Hustack, MD (UTMB)
- Brian Bruel, MD (CY-Pain & Spine)
- George Atallah, DO (Modern Pain Management)
- Christopher Yopp, MD (UTSA)
- Maxim Eckmann, MD (UTSA)
- Yashar Eshraghi, MD (Ochsner)
- Grant Chen, MD (UTH)
- Jamal Hasoon, MD (UTH)
- Daniel Pak, MD (UTH)
